

# Workflow Automation, Content Mastery, Unmatched Output Quality

Elevate your production processes with DALIM TWIST. Streamline workflows, avoid mistakes, automate repetitive tasks, and ensure exceptional quality across print and digital.

## Optimize Your Prepress Workflow for Efficiency and Accuracy

- **Build Adaptable Workflows:** Design flexible workflows that respond dynamically to project demands.
- **Catch Errors Early:** Preflight files to identify and rectify issues before they reach the press, reducing waste.
- **Output Device Optimization:** Effortlessly prepare files for specific press requirements, maximizing efficiency.
- **Image Excellence:** Convert and enhance images for stunning visuals across print and digital mediums.

## Elevate Operational Efficiency with Advanced Automation

- **Eliminate Tedious Tasks:** Automate repetitive manual processes for significant time savings.
- **Data-Driven Workflow Customization:** Utilize internal and external data to automate complex workflow paths, tool parameters, and output variations.
- **Seamless Ecosystem Integration:** Integrate with your existing processes and systems for a streamlined workflow.
- **Universal File Handling:** Process diverse file formats for maximum adaptability.
- **Future-Proof Scalability:** The solution evolves seamlessly with your expanding business needs.

# DALIM TWIST

## Your Path to Effortless Content Excellence

### Advanced Features for Superior Print Quality

- **Tailored Print Files:** Merge diverse file formats and add essential print elements according to your exact specifications.
- **Unwavering Color Accuracy:** Leverage standardized color profiles and conversion tools for predictable results.
- **Precision Trapping:** Apply automated vector trapping for flawless color transitions at print.

### Streamlining Operations Across the Board

- **Standardize Multi-Site Production:** Maintain quality and consistency regardless of print location.
- **Automated Prep for Specialized Processes:** Generate files with pinpoint accuracy for spot UV, foiling, embossing, and other specialty techniques.
- **Universal Press Compatibility:** Ensure file readiness for any Digital Front End (DFE), eliminating errors.

### Upgrade Your Content Processing with DALIM TWIST

- **Achieve Workflow Excellence:** Optimize processes end-to-end, saving time and resources.
- **Deliver Unmatched Quality:** Consistently produce exceptional print and digital content.
- **Exceed Client Expectations:** Meet diverse content needs with confidence and adaptability.
